

terra|nauta 40

Matter of style.

exterior

Three keywords used to describe this yacht are: reliability, comfort and beauty.

Combining the essential elements of the long history of "guc" with modern nautical standards, merging safety with beauty, charm with firmness, challenge with reliability, and simplicity with luxury: terranauta is not a yacht but a bold statement of style.

Not many yachts allows the helmsman to keep the sea, sky and the vessel in sight and in hand, while the terra|nauta 40 spacious cockpit provides even more – the constant sensation of pleasure in navigation.

Crafted by artisans using hi-spec materials, built to exceptional quality level and shaped to welcome the crew nobly both above and below the deck.

The deck itself is completely covered with first-class natural teak. Its sunbathing area has been designed as a small, private beach generously unveiling 13.5 sqm deck. Seating area coated in a hi-quality waterproof material dominates over its four meters wide stern, adding to a relaxing atmosphere for the enjoyment of the crew members.

interior

Fiberglass-made hull unveils the interior that exudes ergonomic luxury. Three comfortable double-bed cabins – two on the stern and one in the bow – feature windows just above the waterline, providing direct contact with the sea.

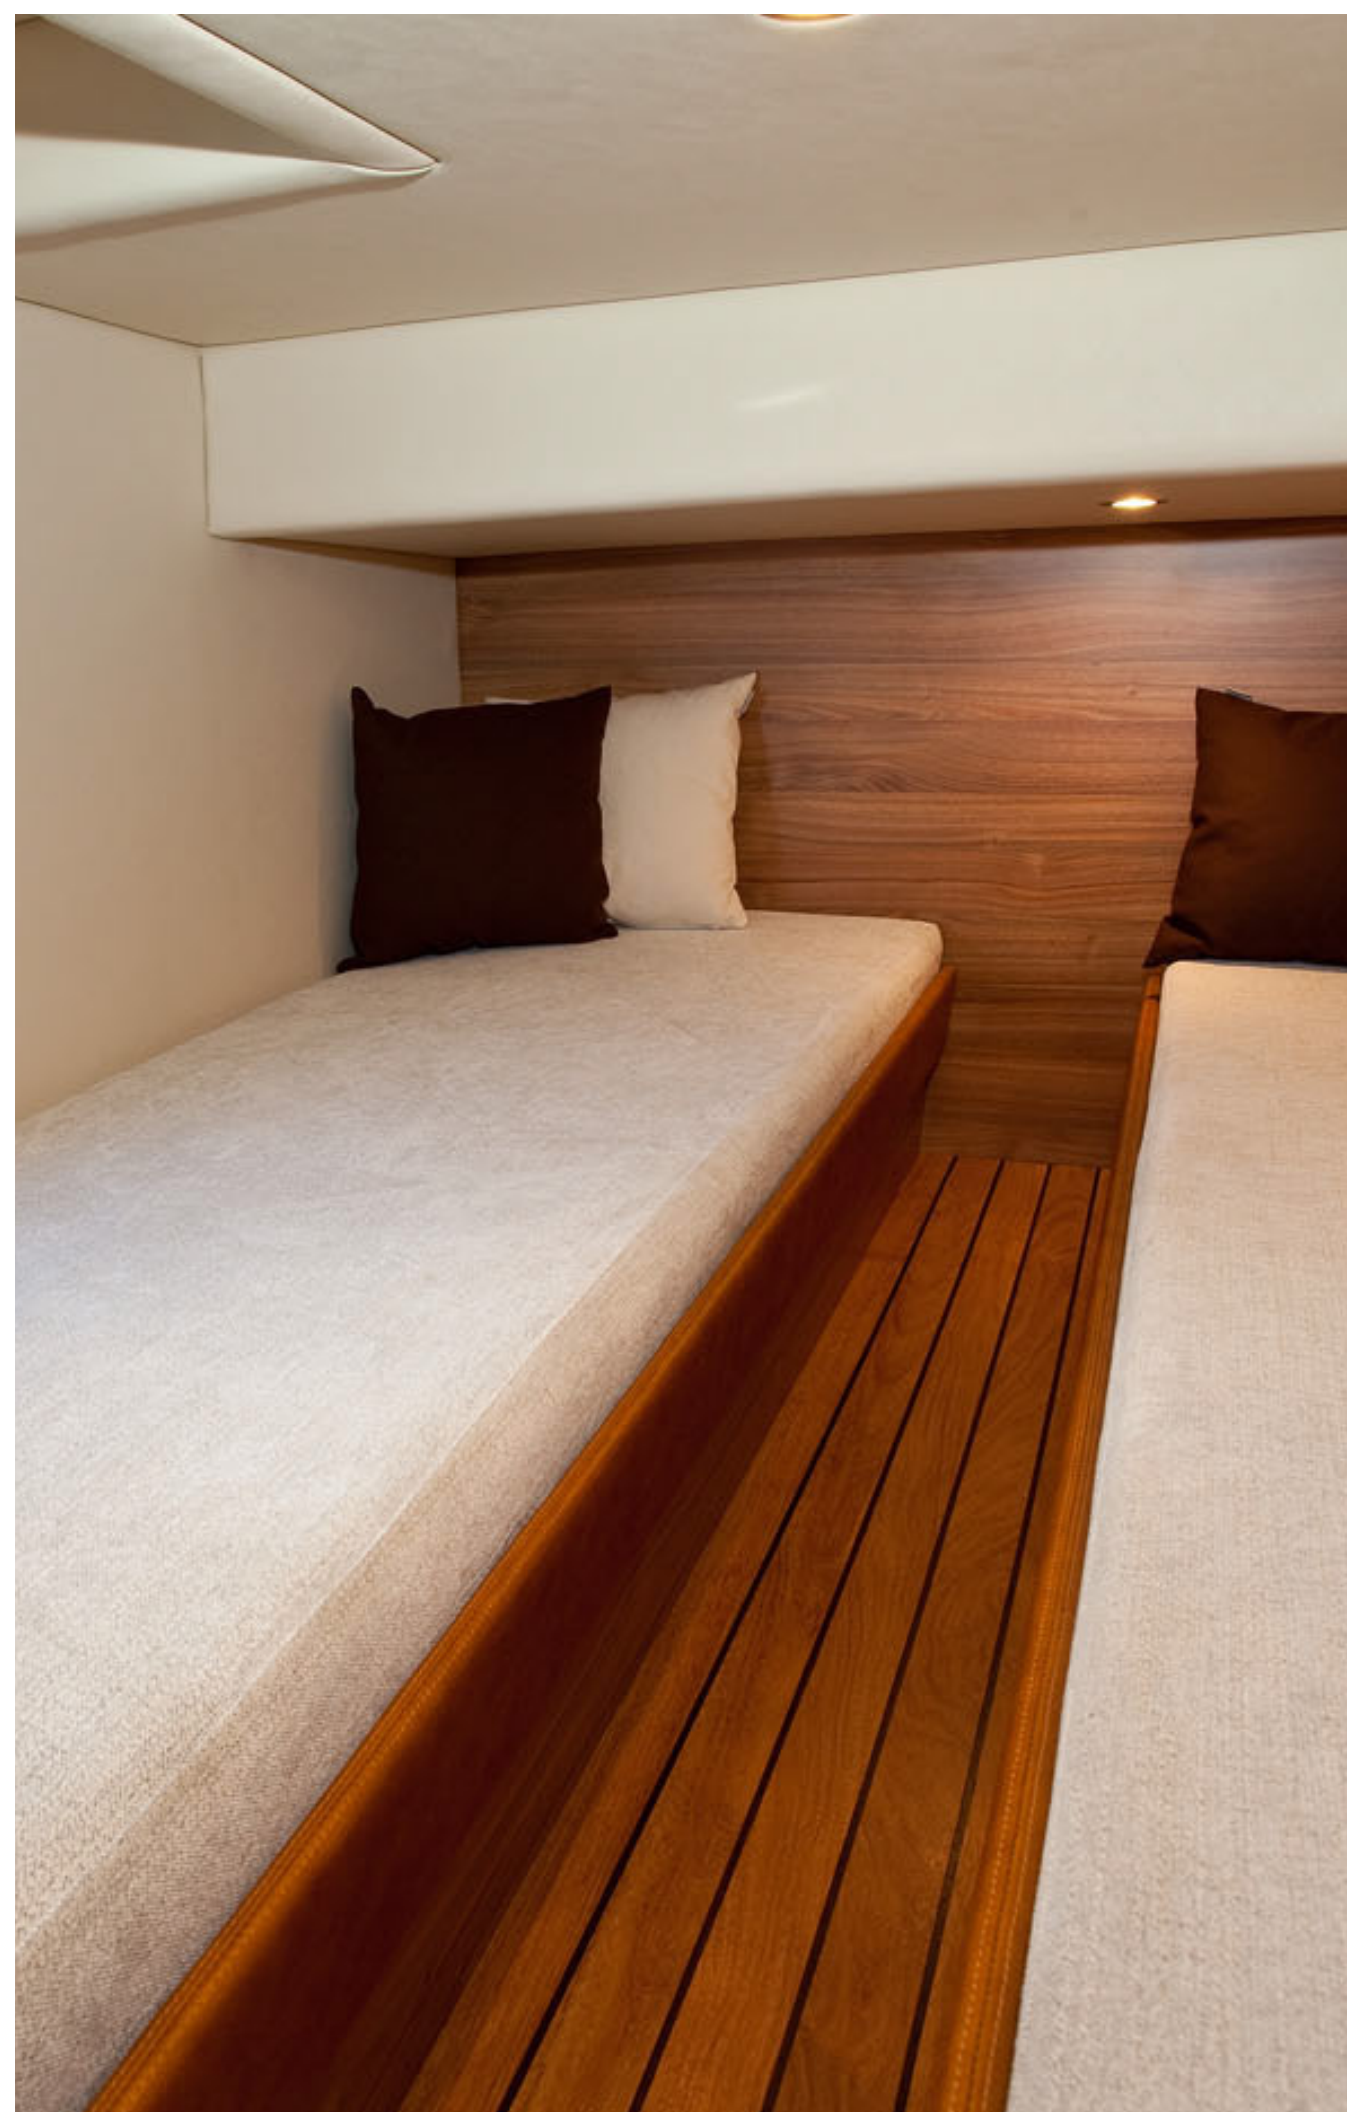

Padauk, a first-grade hardwood from equatorial Africa, is used for all the furniture. The floor is covered with Merbau, a beautiful hardwood, while the seating area features soft but durable leather, in a colour that blends perfectly with the surrounding teak. The ceramic tiles and sanitaryware in the shower cabin are of premium quality.

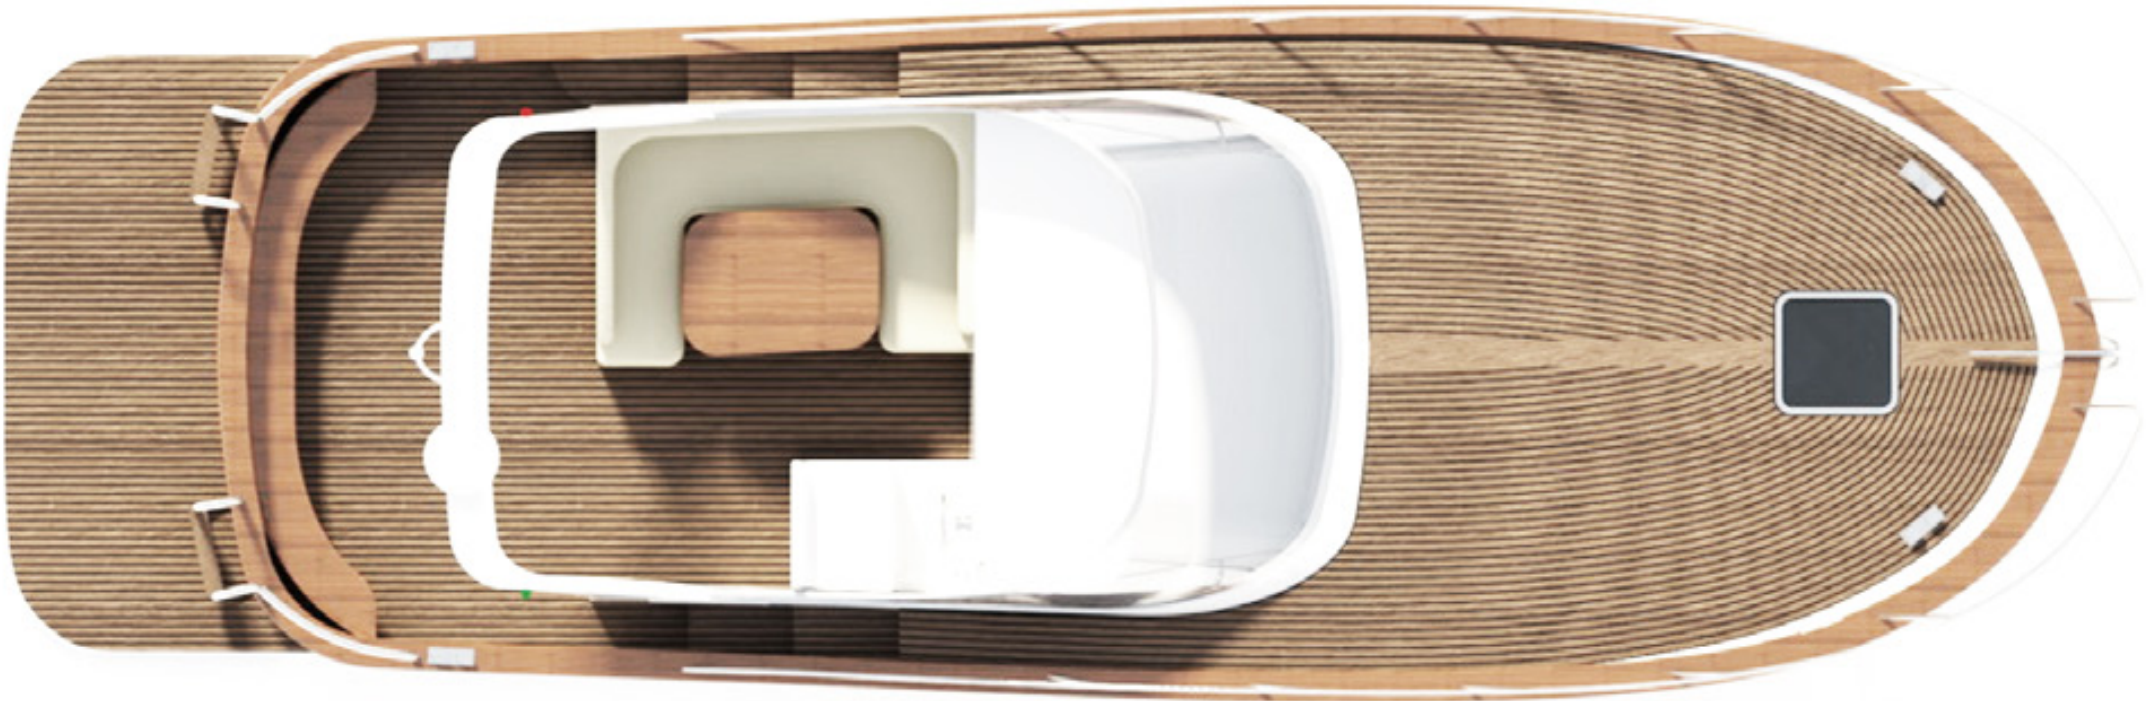

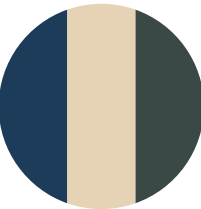

Every aspect of the terra|nauta 40 has been carefully designed to exceed nautical standards and comfort needs. A traditional Mediterranean working boat has been transformed into a luxury yacht in the most unique way!

Technology built-in will provide steady, convenient ride over the waves and snug mooring even in the rough weather while hi-end navigation equipment with wireless internet support will ensure the full enjoyment of navigating.
